Under the Terms of Union with the Dominicu, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial micrests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

As the Possible.

agricultural, mining, and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each Settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall arge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more lighthouses. I shall therefore make the most strengous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to crect others elsewhere, as soon as possible, te insure greater safety and certainty in navigating the Gulf.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

The Geologica! Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to insure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The Fisheries along our coasts premise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose. may be appropriated for that purpose.

GENTLEMEN,—Your requisition soliciting me to become a candidate for the Local Legislature of the Province of British Columbia is now before me, and it affords me great pleasure to accept the honor you, wish to confer on me. If elected I will exert my best endeavors to represent your interests faithfully in the House.

My Principles are, Free Education, Assisted Immigration, the Camadian Tariff, Public Improvements and a desire to get the Canadian Pacific Railrosd extended to Victoria and Esquimalt, together with a hearty support of all measures calculated to promote the wellbeing of the nation. Thanking you for your expressions of confidence in me.

I consider it would be superfluous to parade before an intelligent constituency a long array of glowing promises, and if elected, I rould only claim the poet's privilege, that is, to speak what you think.

My views are much in unison with yours, when I say that I am in favor of the inniediate adoption of the Canadian Tariff; amendment of the Civil List Act, to embrace only Heads of Departments; a liberal and non sectarian School system maintained directly from the Provincial exchequer; large appropriations for roads and bridges, and other works of public utility throughout the Province.

The question of a Graving Dock in Esquimalt harbor is a necessity to our present and future wants, and highly practicable, and I will ure its claims in the House at the proper moment. A tax on wild lands, and free grants to bons fide settlers I would support. An extension of the franchise to all British subjects, and ballot voting, are reforms which I would also support.

I would only add, that the best interests of the Province, and especially of the district which I hope to have the honor to represent, will always be to me objects of my carnest solicitude.

GENTLEMEN:—While travelling through your district in July last, I was the recipient of very great encouragement to offer myself as a candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominional politics, having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible. I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of this Dominion in general, and of this Province in particular, in a satisfactory manner.

Knowing the feasibility of the Canadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my Overland Journal, published in Outario; as well as on this coast for the past twelve years, I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Bequimalt or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolic labor either on the Railroad or other public works and will strenuously resist any attempt in that direction. Should the Tariff problem not be solved by the Losal Legislature; but a modification of the Canadian Tariff, in so far as agricultural produce is concerned, recomment will place mail communication on a thoroughly efficient footing from Sooke-to Comox long before the re-opening of Parliament; should this Rowever, not be the case I shall, if elected your representative, see to it, that every settlement. Saturday, October 14, 1871. Dr. Trimble's Claims on the Elec-

Wonders will truly never cease, when Dr. Trimble can stand up on the hustings and maintain that he has a claim on the suffrages of the electors, for what think you? Why, he says, because "I always supported Confederation!" Truly the Doctor must have had a bad headache indeed, when he made this statement, and no wonder the response of the electors was-"Oh! and laughter." The thing is too patent to excuse such a perversion of facts, and there are too many electors familiar with the apostacy of Dr. Trimble from Confederation to allow his remark to pass unnoticed. If he had stated that he based his claims on his apostacy, there would be far more reason and a great deal more truth. Dr. Trimble's connection with Confederation originated when he was Mayor, on an occasion, after some argument, when he was persuaded to preside at a meeting. Then as signer with others to a memorial to the Governor General. The favorable response of the Cabinet to that document, and the opposition of Seymour's Government to Confederation, produced the Confederation League. Dr. Trimble, as Mayor, was made President, and after one sitting deserted his post without ever resigning or even notifying the Secretary, Mr. Beaven, that he would not attend. This is a matter of record, and if any one doubts it, we will produce the journals of the Confederation League to establish it beyond desputation. When the election came on in the fall of 1868. Dr. Trimble promised to vote for the Confederate candidates, but never did so. But he even went beyond that; for he pledged his word to propose Mr. Drake, one of the successful Anti-Confederate candidates. Now, what think the electors of the claims of Dr. Trimble on the ground of being always a Confederate? If any of the candidates have claims on the electors on the ground of being always a staunch Confederate, it is Mesers. Beaven, Duck, McMillan and Williams. These gentlemen never deserted their posts, either as members of the Confederate party or at the polls; but Dr. Trimble did. In the darkest have of Confederation, they were always. hour of Confederation, they were always on duty, and never were trimmers moving from side to side, hated by none and despised by all. To such men the country and city do owe a debt, and ought to pay We concede to everybody the right to change their opinion on political matters as often as they please; but we exact from all such the manly acknowment of the fact of having changed and not its denial. If Dr. Trimble had taken that course in his speech on the hostings, we would not have been called

on to correct his assertion. Attention! Electors.

Our attention is repeatedly drawn to the fact that there are many electors who have a very confused notion about the number of candidates for whom they are entitled to vote. Now, if all such will pay attention, we will try once more to ealighten them, and put them on the right track. For Victoria city there are six candidates who stand to represent it in the Legislative Assembly. These candidates are Messrs. Duck, Beaven, McCreight, McMillan, Trimble, and Williams. Now, where the confusion steps in is in mixing the candidates for the House of Commons, Messrs. DeCosmos and Nathan, with those for the Local Assembly. Now, neither of the two last gentlemen stand to represent the city in the Local House. Hence, each elector can take his choice from the first six gentlemen named,-and out of that number they are legally entitled to vote for four candidates, and four only. Now, let there be no mistake made in refusing to Chemainus.

OUR EASTWARD JOURNEY bound on a visit to their former homes; nearly all propose returning.

The scenery about Green River and the Weber, is grand in the extreme and presents out the journey. The rugged mountains with their castellated peaks of solid rock which rise in fanciful forms to dizzy heights are placed in contrast with the smiling valley, and produce a scene which while it baffles description, causes the eye and afterwards the memory to gaze upon it with rapture. After leaving Weber canyon, the country from Ugden to Omaha is a vast prairie, in some parts of which were to be seen large herds of cattle, but this magnificent plain is almost entirely in possession of the antelope which here abound in large numbers. Arriving at Omaha without delay, we changed cars, and oidding good bye to the deserts and plains of the continent, we once again mingled in the whirl of population and entered Chicago.

CHICAGO is a great city. Through the kindness of an this coast there are but two or three practiequaintance I was enabled to spend the few lays of my stay there to advantage. of that power which one Act of Parliament can exercise of that power which one Act of Parliament can exercise over another.

In the framing of the "Qualification of Voters" Act.' I had no more to do than I had with the "Road Act," the "Real Estate Act" and the "Education Act," which proved to be as defective as they were inoperative. But the principles and the technicalities which ought to constitute the spirit must be rigidly adhered to by these who profess to have respect for law.

It is well known that when I selected Esquimalt as a residence I considered it the key of the colony, and I think so still. I may not be able to bring the Graving Dock or the Railway to my own door, but I may be instrumental in bringing one or both of them to some of yours without the aid or cost of a dredger.

It was not difficult to persuade some of my friends when I was in England to try the experiment which brought steamers from England, and although the success was not equal to expectation, I hope the day is not far distant when steamers of greater pretensions than the Robert Lowe or W. S. Lindsay will enliven the wharves of Esquimalt-harbor.

The Tariff which only came into operation a few years ago was the emanation of your most astute statesmen, who considered free port had run its day.

The revenue previously derived from Real Estate or a land tax, was to be provided by a tariff which included a duty on foreign grain. There can be no denying but that it has worked for the benefit of the farmers and industrious classes, and injured no one but those who can take care of themselves.

care of themselves.

The difference between the Canadian Tariff and our own lies as between beef and bread. Allowing a pound of flour at five cents and a pound of beef at twenty cents per day for each man, a saving of a cent duty upon flour to lay it upon beef makes no difference to the consumer but a very great difference to the producer. Let those try to catch votes who can by the idea of a modified tariff on a sliding scale. In less than ten years I believe the Dominion tariff will be altered and universally adopted, but in the meantime let us try to profit by our own as long as we may.

The clearing and cultivation of the land give employment to the industrious classes and wherever your corn is produced thither must your plowman and your reaper your shovel and your capital go.

One herdsman and a marrow trail are sufficient for many hoofs, but it requires the handicraft to make a mill and industrious hands to keep it going.

And while I am aware that many other important and debatable questions will soon be brought forward, I can see no necessity for hoisting party colors and will follow no uncertain sound. I have no confidence in those who anticipate the day when the gross delusions of Communists will prevail. I am for building up and not for pulling down. I will neither work nor maneuver for spoil and therefore have no plunder to offer. I will favor no monopoly, but encourage every individual and private enterprise with a hearty and healthy cooperation of every interest for the general good, and on these principles I am prepared to stand or fall.

It called upon to serve you I will do it disinterestedly and faithfully. With unfeigned thanks for the requisition that is before me,

I have the honor to be

Your very obedient and humble servant
